

Online Safety Policy

November 2016

DITTON INFANT SCHOOL

2nd Edition August 2016 for implementation September 2016

Kent County Council believes that the safe use of information and communication technologies in schools and education settings brings great benefits. Recognising online safety issues and planning accordingly will help to ensure appropriate, effective and safer use of electronic communications.

This document has been the work of the KSCB Online Safety (e-Safety) Strategy Group

Keeping policies up-to-date

It is strongly recommended that education settings revise their online safety policy at least annually to reflect changes and advancements in technology. It must also be revised following any local or national guidance or legislation changes.

Schools and settings should also revisit their policies following any online safety concerns within their community to implement any lessons learnt or highlight any good practice. Schools and settings should also review and update policies when introducing new technology and systems to ensure there are clear expectations regarding safe and responsible use.

Due to the constantly evolving nature of technology (including local and national guidance and legislation) this document will be updated frequently. Leaders and managers are encouraged to make a note of the edition version used and check Kelsi for updates. Alternatively leaders should subscribe to the Kent e-Safety blog for email alerts <https://kentesafety.wordpress.com/>

5. Policy Decisions

Ditton Infant School is aware that the Internet is a constantly changing environment with new apps, tools, devices, sites and material emerging at a rapid pace.

Emerging technologies will be examined for educational benefit and the school leadership team will ensure that appropriate risk assessments are carried out before use in school is allowed.

The school will ensure that appropriate filtering and monitoring systems are in place to prevent staff and pupils from accessing unsuitable or illegal content. (Broadband provided by EIS)

The school will take all reasonable precautions to ensure that users access only appropriate material. However, due to the global and connected nature of Internet content, it is not always possible to guarantee that access to unsuitable material will never occur via a school computer or device.

The school will audit technology use to establish if the online safety (e-Safety) policy is adequate and that the implementation of the policy is appropriate.

Methods to identify, assess and minimise online risks will be reviewed regularly by the school's leadership team.

5.2. Internet use throughout the wider school/setting community

The school will liaise with local organisations to establish a common approach to online safety.

The school will work with the local community's needs (including recognising cultural backgrounds, languages, religions and ethnicity) to ensure internet use is appropriate.

The school will provide an Acceptable Use Policy for any guest/visitor who needs to access the school computer system or internet on site
